

JP1000

Safety Box

JP'1000 Safety Box can be placed in office or house to protect important stuff. In comparison with password or key, fingerprint recognition can provide higher security. Cellphone, stamp, jewelry, wallet, cash or key can be well protected in the JP'1000 Safety Box.

Features:

- Works with wet/dry fingers
- 4 Alkaline AA 1.5V batteries
- Buzzer for low battery alert
- Keypad for registration
- Up to 4 users can be registered, including 1 master as administrator
- Administrator can manage or delete users
- USB 5V for backup power supply
